

Road Crew

To The Editor:

I would like to extend a personal thank you to the road crew in the South Colton community. Every spring, the worst part of clean up by far is raking the salt and sand out of the yard that winter plowing deposits. I am presently watching outside as our crew is coming much farther up into the yard to remove this sand and salt mix than is probably in the job description. The power rakers used are saving hours of hateful raking and removal of this messy, lawn killing stuff.

Our road crew probably never hears a single word of thanks from anyone, so I am extending this thank you and praise for excellent service, not just for now, but for all year around. While politics in the Colton community are one of the worst situations one could imagine, personal observation shows me that we have the singular best road crew of any area in the North Country! Thanks, guys, for going above and beyond the call of duty!

Steve Goodrich
